

**QUICK, FRESH AND
SUSTAINABLE**

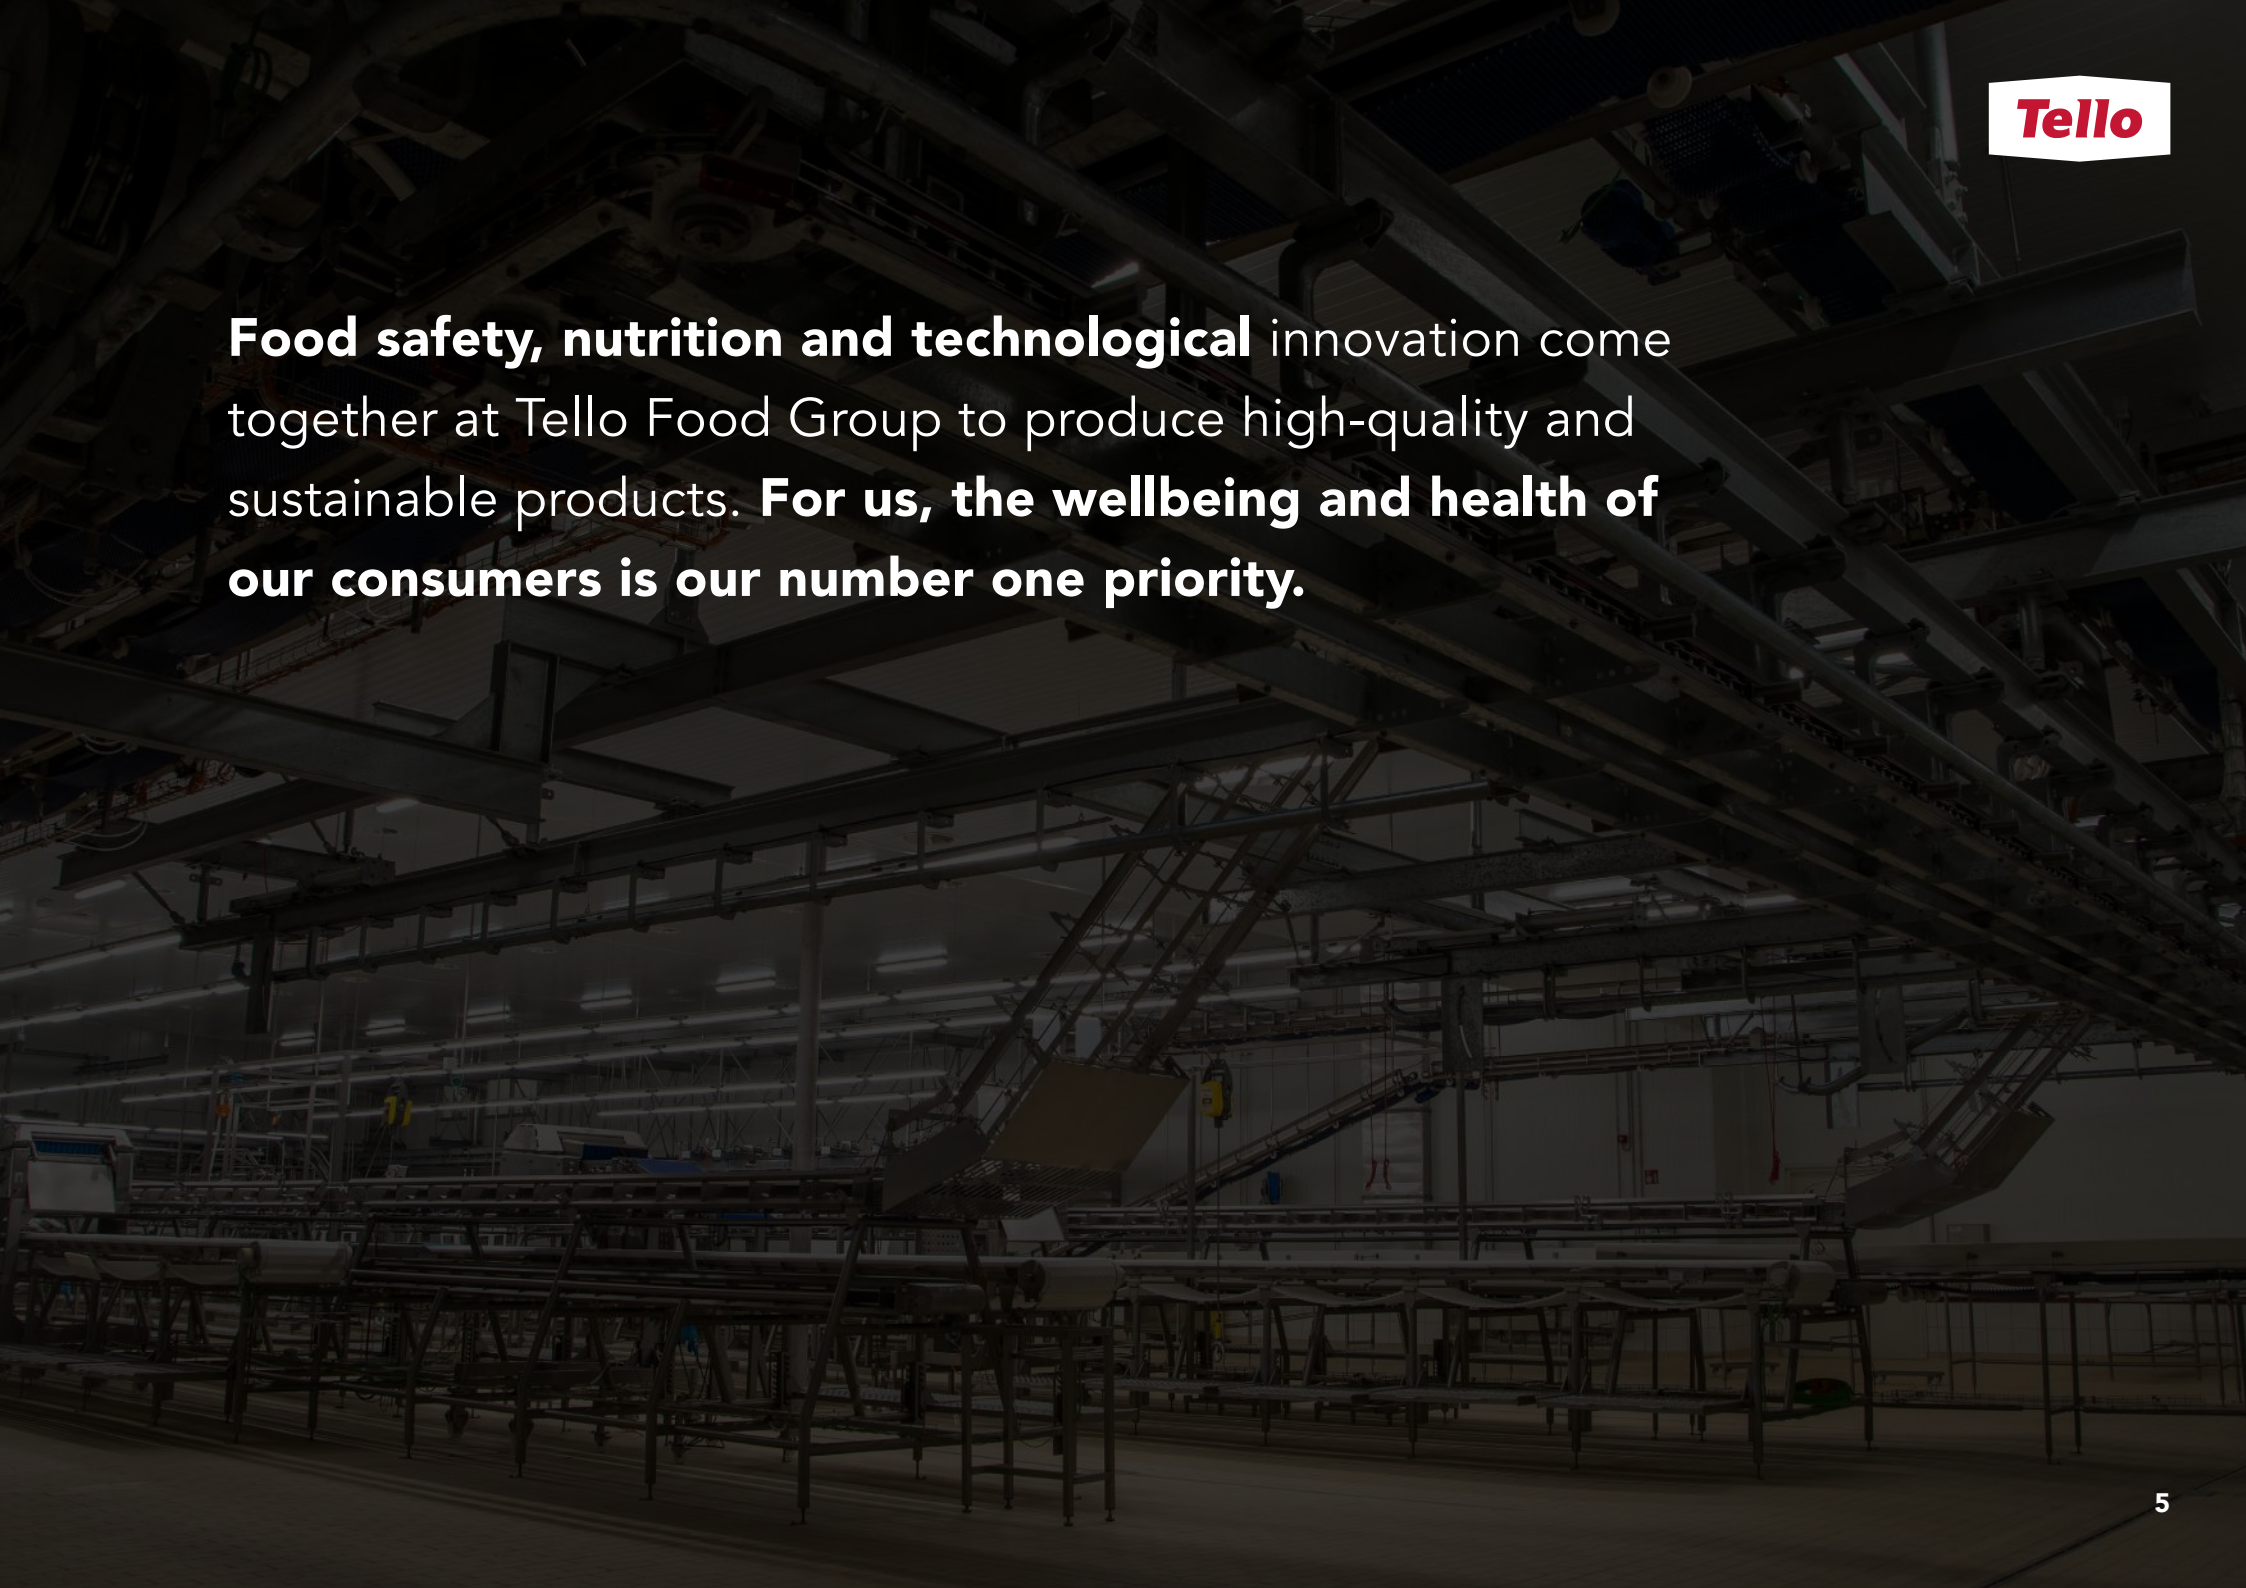

TELLO FOOD GROUP

Tello Food Group, with **more than 50 years of history**, is a **family-owned company based in Toledo, Spain**. Dedicated to the production of meat products, **it is one of the leading companies in the industry in Spain with a consolidated international track record**. An incredible journey that has taken us from being a small counter in the mountains of San Pablo de los Montes to distributing our products to the five continents.

Food safety, nutrition and technological innovation come together at Tello Food Group to produce high-quality and sustainable products. **For us, the wellbeing and health of our consumers is our number one priority.**

TELLO FOOD GROUP, ADDED VALUE / VALUE CHAIN

Grupo Tello offers a total guarantee in its processes, from the origin to the table. It has its own farms certified with Animal Welfare, a transformation centre and two cutting plants. **Our six production plants, spread throughout Spain, have IFS certification, ensuring the total quality of its products,** both pork cuts and further processed.

FIND OUT MORE ABOUT THE TELLO FOOD GROUP FAMILY

Sliced and retail packed pork meat cuts, both chilled and frozen with a strong international presence.

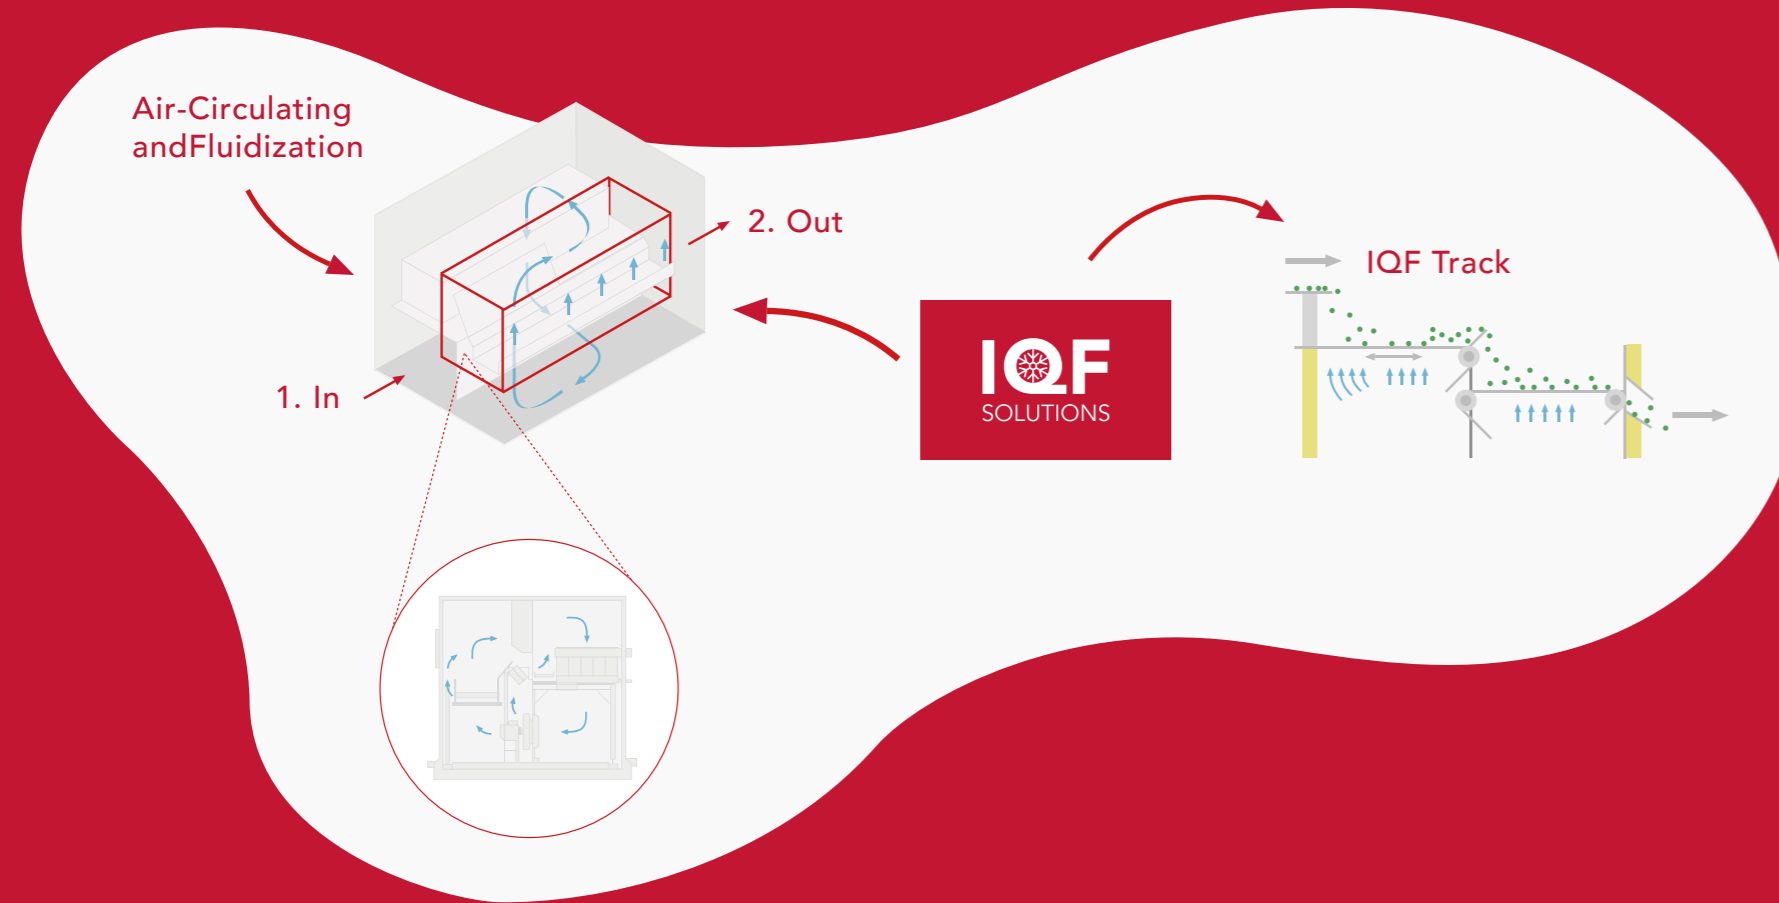

VALLE
Traditional Mortadela and poultry products.

Tello Food Group is currently present in more than 52 international markets. Our goal is to increase our export business turnover based the adaptation of our portfolio to the constantly changing customer demands.

Tello's latest technological development is the IQF system. IQF, stands for Individual Quick Frozen. This new production process blast-freezes our meat products individually and in a much more quick and efficient way, **this ensures that the nutritional values and organoleptic qualities are kept the same as in chilled conditions.**

IQF products helps reduce food waste. A challenge that in Tello Food Group is considered as a guideline in all our activities.

HOW IT WORKS?

Innovation

Our new IQF production line has a **capacity of up to 1000 kgs/h.**

Efficiency

IQF technology increases the shelf life of the products while keeping its taste and texture, thanks to its blast, individual and efficient freezing systems.

Adaptation

Many different options in terms of sizes, weights and packaging based on our customer's requirements.

Food waste reduction

IQF helps minimise waste as product shelf life is increased, all while the product remains unharmed and keeps their original freshness.

Sustainability

Tello food Group is fully committed with the reduction of our carbon print. Tello's main facility is equipped with a photovoltaic plant that avoids / prevents the emission of 2.600 tons of CO2 every year.

Usage of 92% recycled PET material in our retail packed products.

Reduction of up to 80% of plastic use in all our packaging.
